Here it is. My apologies upfront – it's an ugly spreadsheet.

Apparently there was a spreadsheet attached with columns I need to fill out. Can someone send that to me?

No HQ funding on TO 50 (Field)

For TO 49 (Analytical), all site and non-site work was HQ funding HQ EXCEPT this site work:

Nonresponsive

For TO 51 (Bio analytical), all site and non-site work was HQ funding EXCEPT this site work:

Nonresponsive

- Upper Animas, and
- Upper Cement Creek

For TO 54 (Risk), there was some HQ funding, but none of it was site specific. Dan will have to explain / list (non-site) TDFs that HQ funding supported.

Hi Dave,

It's that time of year again and I bet Muriel will be looking for the site specific funding and utilization reports. Can you fill out the A column with sites that were HQ funded. I think you made extra lines for partially HQ funded sites last year (like Libby).

Thank you and happy New Year!
